-----

Mayor N.B. "Buck" Jordan called the meeting to order.

-----

Public Works Director Jeff Chambers reviewed a list of streets that are currently eligible for the 2011 Street Rehabilitation Program. He reported streets that require rehabilitation which means just taking the driving surface up are considered low intensity streets. It is an annual program that comes out of the annual general budget. Mr. Chambers reviewed a list of streets that are eligible for the Capital Improvement Programs noting they are considered high intensity streets that will be completely restructured. Mr. Chambers reported approximately \$680,000 is left from the annual budget for street rehabilitation. He reported, when preparing the street rehab priority list he looks at four (4) factors: condition of the street; number of cars traveled on a street; function of a street; and the age of the street. Mr. Chambers reported the priority status of the projects, on the handout, have been established based on either their time sensitivity or the severity of their deterioration.

Council and City Staff discussed several scenarios of the Capital Improvements Program and 2011 Street Rehabilitation Program.

After a lengthy discussion, the meeting adjourned at 7:00 p.m.

**No action taken.**

Respectfully submitted,

Lori Saunders  
City Secretary
