Applications should be sent to: **Waxahachie Downtown Farmers Market, City of Waxahachie, P.O. Products that may be sold:

Raw agricultural products: Products grown or produced or purchased by the vendor or his immediate family, including, but not limited to fruits, vegetables, nuts, herbs, grains, flowers, fiber, bedding plants. Additionally, each produce vendor must obtain a Market Vendor Permit at a cost of \$135.

Value-added agricultural products: These products are admitted only with Committee approval. They include raw agricultural products grown by the seller that have been processed, such as meat, poultry, milk, cheese, oils, vinegars, eggs, honey, soaps, prepared foods, yarn and herbal preparations. Agricultural products licensed, inspected or otherwise regulated by the federal government, the State of Texas, Ellis County or the City of Waxahachie may be sold only upon the Market's receipt and acceptance of required documentation of compliance. Vendors must abide by all applicable federal, state and local health regulations, and must adhere to federal guidelines on all labels. Additionally, each value-added product vendor must obtain a Market Vendor Permit at a cost of \$135.

Crafts: Craft products may be admitted only with Committee approval. Only handmade, agriculture-oriented crafts will be allowed. Such items may include, but are not limited to, wreaths, swags, dry flower arrangements, pressed flowers, scented sticks and potpourri. The product must meet basic expectations of product function and safety. Craft vendors must obtain a Market Vendor Permit at a cost of \$135.

Concessions: A limited number of food and drink concessions will be allowed at the market at the discretion of the managing Committee. Applications to sell concessions must be submitted to the Committee for approval. Additionally, each prepared food vendor will be required to receive Temporary Food Permit every two weeks from the City Health Department. This permit requires a one-time \$135.00 Market Fee, and a renewable Temporary Food Permit of \$60 every 2 weeks. An annual permit is available for \$120 providing all requirements are met.

Informational Booths: To further the educational purposes of this market, the Texas Department of Agriculture, Cooperative Extension Service and their volunteer groups may have the use of one booth space at each market. This booth will be furnished to the Extension Service without necessitating a permit and without cost.

Not-for-Profit Groups: One booth will be set aside at each market for a non-profit horticulture/agriculture related group. The products/nature of the booth must be in keeping with the agricultural nature of the Market. The Market Committee will review the appropriateness and make this determination. Not-for-profit groups must make application for booth space per the above guidelines and the Market Committee will select one group to participate in each week's market.

Intermittent Vendors: Space permitting, there will be a couple of booths set aside for vendors who do not want to commit to being at the market every Saturday for the entire season. These vendors will be allowed to participate in the market on weeks they desire with proper advance notice to the Market Committee. The Market Committee will review the appropriateness of products being sold to determine entry into the market. Vendors wishing to participate in the market in this capacity must submit their request by Wednesday of the week they want to participate. The first time they participate, they will pay a \$35.00 Market Vendor Permit fee. Every week after that the fee will be \$25.00. Once the vendor has reached the \$135.00 limit, they no longer have to pay the fee, but they still must request space by Wednesday of the week they intend to participate. Space will be assigned to these booths on a first come, first served basis.

Required Fees (Either):

- ❖ a. Market Vendor Permit (seasonal): \$35.00+\$100.00 Market fee (\$135.00 total)
OR

That is, products may be sold by the pound, provided scales are certified by the Texas Department of Agriculture, otherwise, produce shall be sold by the piece, pint, quart, peck, or another generally accepted measure of quantity.

Pricing: To ensure a profitable experience for all vendors, it is strongly recommended that prices of produce be set within twenty percent (20%) of local retail prices between the hours of 8:00 a.m. and 12:00 noon. Because of the perishable nature of produce, prices may be reduced after 12:00 noon.

Sales/Receipts: Vendors must keep receipts or sales records and provide this information upon request from the Market Manager. These figures will be used for tracking purposes ONLY and used to maintain and improve the quality of the market.
