(October 8, 2010) The City of Waxahachie and Service Line Warranties of America are introducing a new program available to all homeowners. The Service Line Warranty program provides low cost, worry free warranty protection for water and sewer lines.

"Many citizens are unaware that they are responsible for the water and sewer lines that go from the meter to their houses. If these lines break or leak, repairs can be very expensive," said Paul Stevens, city manager. The Service Line Warranty program offers citizens an affordable way to avoid the unexpected and often large expenses involved with a water or sewer line break. When a line breaks, the cost to repair it can often cause a hardship on a family's budget. This new program will offer warranty protection to help cover the costs of a break.

City of Waxahachie residents will see offers in their mail boxes soon. The cost for citizens who choose to purchase the warranty protection is \$4.50 per month, and will cover water line repairs up to \$4,000. The program is of no cost to the city of Waxahachie.

"We are pleased to partner with the City of Waxahachie in bringing peace of mind to homeowners in Waxahachie through an affordable Service Line Warranty program," said Brad

Carmichael, vice-president of business development for Service Line Warranties of America. “We think Waxahachie residents will be pleased with our features and benefits, including 24/7 repair service using local, certified technicians. This keeps dollars in the local economy, an important benefit in these tough financial times.”
